FOR IMMEDIATE RELEASE

May 12, 2016

Be seen and be safe. Spring is here, and Alberta farmers and ranchers are back in the fields. This means there will be an increase in slow-moving equipment on rural roads, which can create a hazard for farm equipment operators and motorists.

Remember to share the road and be patient. Do not drive in equipment blind spots where operators cannot see you. Keep back a safe distance — at least 50 feet, when following.

Let's keep everyone safe. For more travel tips visit AgricultureforLife.ca.
