**Let's Keep Everyone Safe this Harvest**

Harvest can mean long hours and tight timelines as a year's worth of planning comes down to a few weeks. Let's work together to keep everyone safe in the field, on the road, and on the farm this harvest.

Remember, PTO shaft turns at speeds that are faster than our reaction time. It is easy to get snagged in an operating PTO shaft. To prevent entanglements and injuries, keep guards in place, wear close fitting clothing, and stop the tractor engine and disengage the PTO to work on the machine or unclog it.
