FOR IMMEDIATE RELEASE

May 7, 2018

BE SEEN AND BE SAFE

Spring is here, and Alberta farmers and ranchers are back in the fields. This means there will be an increase in slow-moving equipment on rural roads, which can create a hazard for farm equipment operators and motorists.

Remember to share the road and be patient. Be aware of slow-moving farm machinery. The typical speed of a piece of farm machinery is 30-40 km/hour. You need to slow down to react.

Let's keep everyone safe. For more travel tips visit AgricultureforLife.ca. We're In It For Life.
